FEATURES

Electronic circuit board with LED indicates compression status and battery capacity. The REC-558U has electronic memory function to record repair history by connecting optional "ROBO-RW" analyzer.

It squeezes commonly used service entrance connectors, lugs, sleeves, H and C taps. It can be easily carried and used in limited access areas because of its swivel head and compact design.

Attached quick release pins make changing between compression head and cutting head a one minute job, with no pins or springs to lose! This revolutionary design eliminates the need for multiple tools at one job site.

The 25CAT cutter attachment can slice nonferrous cables up to 25mm.

The number of crimps for maximum size conductor: 100crimps/BP-70MH
