

MODEL No.

16B

T-20 to T-365 Izumi C-Connectors

**SPECIFICATIONS**

Oil volume required : 44 cc
 Ram stroke : 25 mm

Force at die face :
 118 kN

SIZE

286 (L) mm

WEIGHT

4.5 kg

ACCESSORIES

T-154, T-190, T-240,
 T-288, T-365 dies

Steel carrying case

16B

16B shown with carrying case

FEATURES

Dies for smaller size C-Connectors and non-insulated terminals available.

Optional dies :

1 Dies for C-Connectors

T-20, T-26, T-44, T-60, T-76, T-98,
 T-122

2 Dies for non-insulated terminals

Indenter : 8-14, 22-60, 70-100 mm²
 Nest : 8, 14, 22, 38, 60, 80, 100 mm²

REMARKS

The #16B is a compression head designed to compress Izumi C-Connectors.

It has a 12 metric ton output suitable to compress C-Connectors up to T-365 (365 mm²).

An external 700 bar or 10,000 PSI pumping source is required for operation.

It comes with 5 sets of dies.
 (T-154, T-190, T-240, T-288 and T-365)
